HER ARMS AND LEGS IMMOVABLE

Ten Years With Rheumatism

To this woman it must have been like commencing to live a new life, when she began to use her arms and legs again, after they had been helpless for ten years.

"I suffered with rheumatism," she writes, "and had been bedridden since 1920. I could not move arms or legs, and had to be fed like a child. Every body thought I should be an invalid all my life. I forced myself to fight against it, and tried a number of different things. It was Kruschen that eventually saved me, and to-day I consider it is saving my life. My condition has greatly improved, and my limbs are gradually becoming more supple. Already I can eat without assistance, and dress myself, which I had not done for ten years."

Two of the ingredients of Kruschen Salts are the most effective solvents of uric acid known to medical science. They swiftly dull the sharp edges of the painful crystals, then convert them into a harmless substance, thus relieving the kidneys and assisting them to expel the uric acids, thereby restoring the natural channel.

THE TENDERFOOT

By
GEORGE B. BODNET
Author of "The Cornado Trail,"
"The Canyon Trail," Etc.

SYNOPSIS

"You've fallen heir to a half-share in plenty of trouble," the lawyer told Gerald Keene. "But your father has been systematically looting the ranch, and old Joe Carr, your partner, is drinking himself into ruin. It is up to you to save the ranch."

Keene decided to go see what was happening for himself—not as Gerald Keene, but as Joe Carr, the owner of the Hour-Glass Ranch, but as Duro Stone, tenderfoot in a Montgomery Ward wilderness outfit.

Dad Kane, desert rat and luckless prospector till now is returning to tell Dustin and Spike Goddard, owners of the Broken Spur ranch, who had grubstaked him, of his discovery of a rich gold mine, and to ask a loan of the ore. He sees Brown Spikes rustling Hour-glass cattle and protests against it.

Spike Goddard and Sam Dustin, who are fearing the old prospector may tell them the things he has seen as to the branding of Carr's cattle, plot to get him to show them the location of the mine and then to kill him.

Gerald Keene, dressed in a ridiculous cowboy costume, arrived at the Hour-Glass ranch, and is hired as a cowboy by Joe Carr. The impression of the tenderfoot is successful, and he is accepted as such by the other occupants of the bunch.

Proof of Dustin's cattle stealing activities was accidentally discovered by Stone, who accompanied by Edith Carr was riding fence a long way from the Hour-glass ranch house.

(Now On With The Story)

CHAPTER V—Continued

At the sound of hoof-beats on the trail, man and girl looked up.

"Hello," he said. "Here comes some one."

She gave a quick glance at the oncoming horse, a towering black, and turned a pretty shudder.

"It's no one I want to see," she said coolly. "It's the man who's been hanging about in connection with that stolen cow. It's Mr. Dustin of the Broken Spur."

The black shouldered through the tangle by the pool and rushed the water, and the rider caught sight of the two above him. The next moment he jerked his horse back on his haunches, knelt him out of the pool and forced him through the brush to Edith's side.

"I'm glad to see you, Edith," he grinned at her. "You're out early, aren't you?" His quick glance took in Stone, sitting awkwardly in his saddle, looking straight ahead of him into space. "I gun-muzzie dropped into line with his hip. Even a 'stere gun' can hit at seven feet."

"If you try that," said Stone grimly. "I'll sure plug you dead center. see your father's hauled posts and wire down here to fence Soda Springs. Sorry, but I can't allow that till the courts have decided."

"Till they have decided, the Springs are ours," she said hotly. "I fear I've

SKIN BLEMISHES

Vanish Before Physician's Prescription

Those spots or pimples on your face—why let them go on tormenting you like millions of others have done, you can get rid of your skin trouble through the work of a great physician—Dr. D. D. Dennis. Dr. Dennis' prescription—known in many countries as D.D.D. and now manufactured by Chapman's Italian Skin Chemists—will bring you relief at once, and quickly restore your skin to health. All druggists sell D.D.D. Guaranteed to give instant relief or money refunded.

seen too much. "It's no one I want to see," she said coolly. "It's the man who's been hanging about in connection with that stolen cow. It's Mr. Dustin of the Broken Spur."

his never horse and laughed a little at his awkwardness.

It took him days to master that "stere gun" of his father's, and he knew no master. When Duro Stone shot out of saddle to land twenty feet away on feet and hands, the bunk-house laughed. . . . All but Red Thom, who screwed an inquiring eye at the limp figure that rolled away like a shot rabbit as the horse fell.

(To Be Continued)

Jail Chapel Now Theatre

Will Be Used By Manitoba's Civil Service Dramatic Society

Through the doorway, which not so long ago was opened only to lead condemned prisoners to the gallows, soon will trip a group of young Manitoba members of a dramatic society, whose lilting laughter and sprightly quips will banish memories of tragedy that once haunted the scene.

The doorway is the entrance to what was one the death cell in Manitoba's provincial jail. It is being transformed into a theatre where the Civil Service Dramatic Society will present plays.

Manitoba government civil servants some weeks ago decided to open their own Little Theatre and were granted use of space in the jail by Hon. W. J. Major, K.C., attorney-general. Officers have been elected and the society will shortly begin production.

Once known as the "Vaughan St. Jail," the prison has been remodelled into a provincial government office building. A wide lawn outside the entrance door was once a dreary prison yard enclosed by a formidable fence. Here the gallows were erected. The death cell will be used as a dressing room by the players. The prison chapel, where prisoners once sang hymns under the watchful eyes of their guards, will be the theatre.

Fifty Tons Of Diamonds

Precious Stones Owned In World Worth Fabulous Sum

On women's necks and fingers, in the treasure stores of Indian princes; there are to-day more than fifty tons of cut diamonds. This immense quantity of precious stones owned by the public throughout the world weighs approximately 250,000,000 carats, and is valued at nearly \$70,000,000. The industry employs more than 500,000 men in the mining districts; 25,000 cutters throughout the world; 10,000 dealers in uncut stones, and probably another 100,000 in jewelry shops.

Although the market for big stones is still somewhat limited, since the depression, the sale of small diamonds is increasing. For one thing, they are cheap now, and form a good investment.

THE RHYMING OPTIMIST

By Aline Michells

TO GARNER MEMORIES

O, I would garner memories From every land on Earth, So at the last when I sit down Beside my quiet hearth To fold my hands and nod and dream Above the embers there, I can see Alpine peaks aglow Or breathe Spain's amber air.

I shall not mind the loneliness, Though time goes limping by, For I shall walk the Band again And hear the sea-gull's cry; And I shall see the Southern Cross Aflame just as tonight.

As clearly then shall I behold Monroe's red fortress light, So while I'm sailing overseas To islands far away, I treasure up bright memories Against a distant day.

Fooling The Poachers

Indians in Minnesota Get Even With White Hunters

The red men on the Red Lake reservation at Bemidji, Minnesota, are having a lot of fun these days with white hunters who poach by night on their game preserves. They nail glass eyes on the trees. Under a light the artificial optics glow exactly like deer's eyes and the hunters are hanging about all night long. In the morning the Indians enjoy a hearty laugh at the expense of the would-be poachers who failed to realize that all that glitters by night in a deer forest is not deer's eyes.

Man: "They say that radium is always getting up parts of itself and yet never gets any less."

Neighbor: "Is that so? That's the sort of stuff they ought to make money out of."

Absolute zero, the point at which there is a complete absence of heat, exists at 459.6 degrees Fahrenheit.

follow this plan for better CONTROL OF COLDS

For FEWER Colds
VICKS VA-TRO-NOL

At the first warning sneeze, sniffle, or nasal irritation, quickly... apply Vicks Va-tro-nol—just a few drops up each nostril. When used in time, Va-tro-nol helps to prevent many colds, and to throw off colds in their early stages.

For SHORTER Colds
VICKS VAPORUB

If a cold has already developed, apply Vicks VapoRub over throat and chest at bedtime. Mothers of two generations have learned to depend on its poultice-vapor action to help shorten a cold—and without the risks of "dozing."

Build RESISTANCE to Colds—by following the simple health rules that are also a part of Vicks Plan for Better Control of Colds. It has been clinically tested by physicians—and proved in everyday home use by millions.

(Full details of this unique Plan in each Vicks Package)

VICKS PLAN FOR BETTER CONTROL OF COLDS

Like Styles Up-To-Date

Chinese Women Fawn Clothes And Do Not Modest Them

Women's penchant for change is driving Chinese pawnshops in Shanghai out of business. Chinese ladies in that city are in the habit of pawing their clothes after a brief period of wear in order to get money to buy something more up-to-date in style. They never redeem their garments but the pawnbroker has to wait 18 months before he can sell the clothes pledged with him. By that time they are so out of fashion that he can't sell them. The result of the rapid change in feminine styles of dress has been that in the last year 13 Shanghai pawnshops have closed their doors. All have the same reason for their bankruptcy—that is, their inability to sell feminine clothes that have gone out of fashion.

Humors Of The Law

Some Quiser Things Are Forbidden In United States

The law may or may not be an ass but it is in many states a humorist. In Idaho it forbids anglers, from catching trout on horseback or shooting birds from a seat in a trolley car. In North Dakota no person under 15 years of age is allowed to go within ten feet of a railroad steam engine unless accompanied by a parent or guardian. In Georgia a dentist can be fined for being guilty of cruelty and in Kansas a policeman can run you in if he catches you eating "mashed" biscuits, scorpions centipedes or tarantulas. In public But you can fry them to your heart's or your stomach's content in your own kitchen.

According To Sight

According to experiments conducted by Prof. Francis B. Sumner, color-changing fish depend on their sight to change their colors. When the upper portion of the fish eye was shaded, they assumed a darker shade, while they turned lighter when the lower part of the eye was darkened.

New Guinea tribes often appoint the medicine-man to induce rain to fall.

from

Cowley's Bakery

SYDENHAM ECHOES

A number from this district enjoyed the agricultural wheel drive and dance Friday.

Miss Sinclair spent the week-end at her home in Killam.

Mrs. C. Alexander and baby left Saturday morning for a visit with friends in Vancouver.

The sale of Stadshaus Bros. was quite successful. Horses brought up to \$100, milk cows \$29.50, and the machinery sold at good average prices.

George Goodale had a narrow escape when he went over the grade near Fred Watts. His car was damaged, but he was unhurt.

Strong Liquid Position Is Shown in Bank Statement

The Annual Statement of the Bank of Montreal shows the Bank in its usual strong liquid position. Of total assets of \$759,108,178, quickly available resources are \$491,247,207, equal to 71.97% of all liabilities to the public.

A feature of the liquid assets is afforded by cash holdings of \$9,210,888, up from \$78,883,217 a year ago. The principal holdings are 3.2 government and other bonds and debentures, which now amount to \$17,536,912, as compared with \$316,967,375 at the end of the previous year. The excess of assets over liabilities to the public has increased to \$76,538,810.

The report makes its appearance at a time when it is certain to be studied closely by all who are anxious to get a better understanding of the strong position in which the leading bank has maintained its resources.

Notwithstanding general evidence of more active manufacturing conditions, current loans are slightly down at \$243,477,041, as compared with \$31,886,568 at the end of the previous year. This would indicate that a number of Canadian companies still find it possible to finance

business in its present volume without leaning heavily on banking accommodation.

Deposits Well Maintained
Deposits are well maintained, especially in view of recent large government long offerings. Total deposits payable on demand and after notice are \$630,218,835, compared with \$641,346,710. Notes of the Bank in circulation are up to \$36,255,876 from \$38,819,807, doubtless reflecting a greater measure of general business activity.

Of special interest is the showing of total assets of \$759,108,178 with which to meet payment of liabilities to the public of \$682,569,368, leaving an excess of assets over liabilities to the public of \$76,538,810.

Profit and Loss Account
Profits for the year are reported at \$4,105,024, from which are de-

ducted Dominion and Provincial government taxes totalling \$800,654, leaving net profits at \$3,304,370, equal to 4.23% on the combined capital, rent and undivided profits. From this amount has been paid \$2,880,000 in dividends to shareholders, as compared with \$3,000,000 in the previous year. A further deduction of \$100,000 as reservation for bank premises the same as last year, leaves an amount of \$224,369 to be applied to profit and loss account. With the addition, the total at credit of profit and loss carried forward is \$1,509,829, up from \$1,980,451 a year ago.

As has been the practice for the past few years, the Bank has issued the statement for the public in an easily understood form, with explanatory notes for each of the headings under which the figures are grouped.

The report was submitted to shareholders at the annual general meeting which was held at the Head Office of the Bank in Montreal on Monday, December 3rd.

BANK OF MONTREAL

Established 1817

A presentation, in easily understandable form, of the Bank's

ANNUAL STATEMENT

31st October, 1934

LIABILITIES

LIABILITIES TO THE PUBLIC

Deposits	\$630,218,835.10
Payable on demand and after notice.	
Notes of the Bank in Circulation	35,255,876.00
Payable on demand.	
Bills Payable	185,183.19
Time drafts listed and outstanding.	
Letters of Credit Outstanding	6,522,749.56
Financial responsibilities undertaken on behalf of customers (see offsetting amounts [x] in "Resources").	
Other Liabilities to the Public	10,386,724.55
Items which do not come under the foregoing headings, including \$9,200,000 advances from the Dominion Government under The Finance Act.	
Total Liabilities to the Public	\$682,569,368.40

LIABILITIES TO THE SHAREHOLDERS

Capital, Surplus and Undivided Profits and Reserves for Dividends	76,538,810.08
This amount represents the shareholders' interest in the Bank, over which facilities to the public take precedence.	
Total Liabilities	\$759,108,178.48

RESOURCES

To meet the foregoing Liabilities the Bank has

Cash in its Vaults and in the Central Gold Reserves	\$ 87,210,888.26
Notes of and Cheques on Other Banks	28,670,917.74
Payable in cash on presentation.	
Money on Deposit with Other Banks	16,764,669.62
Available on demand or on short notice.	
Government and Other Bonds and Debentures	317,936,912.23
Not exceeding market value. The greater portion consists of all-village securities which mature at early dates.	
Stocks	103,789.95
Railway and Industrial and other stocks. Not exceeding market value.	
Call Loans outside of Canada	32,133,844.20
Secured by bonds, stocks and other negotiable securities of greater value than the loans and representing money quickly available with no disturbing effect on conditions in Canada.	
Call Loans in Canada	8,399,657.67
Payable on demand and secured by bonds and stocks of greater value than the loans.	
Bankers' Acceptances	26,528.08
Prime drafts accepted by other banks.	
TOTAL OF QUICKLY AVAILABLE RESOURCES (equal to 71.97% of all Liabilities to the Public)	\$491,247,207.75

Other Loans	243,477,041.21
To manufacturers, farmers, merchants and others, on conditions consistent with sound banking.	
Bank Premises	14,500,000.00

Three properties only are carried in the names of holding companies; the stock and bonds of these companies are entirely owned by the Bank and appear on the books at \$1.00 in each case. All other of the Bank's premises, the value of which largely exceeds \$14,500,000, appear under this heading.	
Real Estate, and Mortgages on Real Estate Sold by the Bank	1,487,975.10
Acquired in the course of the Bank's business and in process of being realized upon.	

x Customers' Liability under Letters of Credit	6,522,749.56
Represents liabilities of customers on account of Letters of Credit issued by the Bank for their account.	
Other Assets not included in the foregoing	1,873,204.86

Making Total Assets of	\$759,108,178.48
to meet payment of Liabilities to the Public of	\$682,569,368.40
leaving an excess of Assets over Liabilities to the Public of	\$ 76,538,810.08

PROFIT AND LOSS ACCOUNT

Profits for the year ended 31st October, 1934, after making appropriations to Contingent Reserve Fund, out of which Fund full-provision for Bad and Doubtful Debts has been made	\$4,105,024.34
Less Dominion and Provincial Government Taxes	\$90,634.83
Dividends paid or payable to Shareholders	\$2,880,000.00
Reservation for Bank Premises	100,000.00
	\$2,980,000.00
Balance of Profit and Loss Account, 31st October, 1933	\$ 224,369.51
Balance of Profit and Loss carried forward	1,585,451.28
	\$1,809,820.79

CHARLES B. GORDON,

JACKSON DODDS,
Joint General Managers

The strength of a bank is determined by its history, its policy, its management and the extent of its resources. For 117 years the Bank of Montreal has been in the forefront of Canadian finance.

6,631 Boy Scouts Listed

Calgary Leads, Edmonton Second
18 New Troops Formed
This Year

In the 175 Boy Scout groups throughout Alberta there are 6,631 boys and leaders actively engaged in the scouting program, according to an official census taken as at October 31 and announced recently. This is approximately the same as the number listed at a similar census last year.

The total includes 6,116 boys and 515 leaders. Calgary tops the list with 1498 scouts listed and Edmonton with 1,061 is second. Lethbridge has 212 and Medicine Hat has 281. The remaining 3,064 scouts comprise the membership of the other 171 groups scattered over the province.

The boys are divided into the following classes: Wolf Cubs, 2,177; assistant cubmasters, 59; scout masters, 167; assistant scoutmasters, 143; Rover Scout leaders, 22; assistant Rover Scout leaders, 9; district commissioners, 11; others, 15.

Thirteen new troops were organized in Alberta during the past year.

HOPE VALLEY NOTES

Miss Josephine Saban, who was in Edmonton undergoing an operation for gallitis, returned home on Thursday.

Mr. and Mrs. Clifford Taylor, of Red Deer, are visiting relatives in this district for a few days.

Mrs. John Moore has been ill. We are glad to report she is feeling a little better.

Mr. and Mrs. James Redmond held a wedding dance in Rosedale Hall on Wednesday evening. There was a large crowd present. Every one had a good time.

The Maple Leaf Club players held a practice at L. Lines' on Friday night.

Mrs. J. Sewell has been staying with Mrs. John Moore during Mrs. Moore's illness.

The Maple Leaf Club held their Annual meeting in the school Saturday night.

Don't forget the Big Maple Leaf Dance in Rosedale Hall Friday the seventh.

We extend our sympathy to the young gentlemen that spent two precious hours trying to start a bulky motor on Friday evening. Rather chilly for this variety of outdoor sport, eh boys?

Laziness is the quality that makes a husband think the drying of dishes an undignified task for a man.

Farewell Held for Two Local Bank Boys

On Tuesday evening last a very enjoyable time was spent in the Odd Fellows Hall when a large number of young people gathered to bid farewell to Roy McLaughlin and Mel Hugel.

Roy, who has been here for the past four years, has made a host of friends, who are sorry to see him leave. Mel, who has been here scarcely a year, will also be missed by a large circle of friends.

The main event of evening was dancing. Lunch was served at mid night. After lunch the boys were again presented with a fancy alarm clock.

Dancing was resumed and the party broke up in the early hours and everyone reports an excellent time.

AGED BOVINE GIVES BIRTH TO TRIPLETS

A toothless old Ayrshire cow, the property of J. W. Stephenson of Cayley, has staggered her owner by presenting him with triplets, two heifers and a bull calf. Mother and children are doing well, and it is presumed that the able father is also all right.

The surprising phase of this bovine achievement is the age of the party of the first part. Although the cow is now over 20 years of age, she is sure she must be around 20 years. In fact, he believes that with a little checking up with former owners he might get her on the voters' list this fall. But he isn't going to bother about that until he is sure she would vote right. At any rate, he bought her nine years ago from a neighbor. She was well on in years at that time, but with the reputation of being a great milker. She has lived up to her name, and even now can go long way toward sustaining her surprising life.

During the past year she has been showing the burden of age by "gumming" her way through meals, and not so bright as might be. Her owner as much as thought it would be a kindness to put her out of the way. But she has showed him!

Luxury is something that only a lucky man can afford.

Held Friday, December 7th, for the Harmony Minstrels, in the Elks Theatre, under the auspices of the Curling Club.

Cut Out, and paste in a note book for future reference.

QUESTION NO. 3.
How Can I Understand The Bible?

Ans. "It is written, I will do. From the wisdom of the wise, and will bring to nothing the understanding of the p.r.sist.

Y. Hath not God made foolish the wisdom of this world.

For after (H.L.) in the wisdom of God, the world by wisdom knew not God.

"Because the carnal mind is enmity against God; for it is not subject to the law of God, neither indeed can be."

"Jesus said, I thank thee, O Father Lord of heaven and earth, because thou hast hid these things from the wise and prudent, and hast revealed them unto babes. Even so, Father for so it seemed good in thy sight."

"How be it when he the Spirit of truth is come, he will guide you unto all truth. He shall glorify me, and shall take of mine, and shall shew it unto you."

Marvel not that I said unto thee, Ye must be born of the Spirit.

"For what man knoweth the things of a man, save the spirit of man which is in him? even so the things of God knoweth no man, but the Spirit of God."

"Now we have received, not the Spirit of the world, but the Spirit of God, that we might know the things that are freely given to us of God."

"Now we have received, not the Spirit of the world, but the Spirit of God; that we might know the things that are freely given to us of God."

"But the natural man receiveth not the things of the Spirit of God; for they are foolishness unto him: neither can he know them, because they are spiritually discerned."

"And we know that the Son of God is come, and hath given us an understanding, that we may know him that is true; even his Son Jesus Christ; whom to know is life eternal."

(Cut out and file away for future reference).

PROVINCIAL GOVT IS ASKED TO TAKE OVER OIL DISTRIBUTION

The Provincial Government was asked at the annual convention of the Camrose U.F.A. Provincial Constituency Association, in a resolution, to take over the distribution of fuel oil, or the development of one of the Alberta oil fields. Another resolution, asking that social credit be placed in the U.F.A. Provincial platform, was passed by a narrow margin.

Other resolutions expressed appreciation of the work of Hon. H. H. Stevens in the mass buying investigation; and challenged W. Howson, M.L.A., Liberal leader, to debate in Camrose, with some U.F.A. Member of the Legislature, on the record of the U.F.A. Government.

Nearly all locals in the constituency were represented, and the hall was filled to capacity.

The social climber undoubtedly prefers the seashore to the mountains because of the swells.

Some people flatter themselves when they are unable to get others to do it for them.

World Wheat Price Nears Record Low

Western Canadian farmers may not be aware of the world situation in wheat prices and it may come as a surprise to them to learn that the price in Liverpool last week-end came very near the record lows established in December 1932, when Canadian wheat at Fort William was quoted at 88c a bushel. At that time Liverpool wheat was 4 shillings 8 1/2 pence, while on Thursday last with Winnipeg December wheat at 79.1 a bushel the December price at Liverpool was only 4 shillings 9 pence 1/2 higher than two years ago. Difference in exchange of course, counts in part for the increase in Canadian prices but besides feelings and misgivings of the Liverpool market and the pegged price in the Winnipeg grain exchange are two very prominent factors in the situation.

RUSSIA INAUGURATES DIRIGIBLE AIR LINE

MOSCOW—One of the few commercial dirigible lines in the world will be opened early next year to span the 1,000 miles between Moscow and Sverdlovsk, in Central Asia.

Huge ships will carry 18 passengers and mail, and will operate on a time-table basis, making the trip from here to Central Asia in about 16 hours.

The ship, now under construction will have a gas capacity of 18,600 square meters, will be a rigid type, and will be powered by three motors of 250 horse-power each.

As the dirigible flights will be non-stop, only emergency landings will be being provided. A mooring mast for the ship is being constructed at Sverdlovsk.

Confidence Is Returning

The year of 1934 is rapidly drawing to a close and people are already turning their thoughts to the coming new year and giving consideration to matters which will command their attention and activities in the next twelve-month period. Already throughout the western provinces municipal councils and school boards have been chosen to which will be entrusted the administration of local community business throughout the new year. And the thoughts of all people are increasingly occupied with what betterment of existing conditions may be looked for in the months that lie ahead.

Unquestionably, people are entertaining a greater degree of confidence that the general economic situation is improving than has been in evidence for some time,—the most discouraging feature being the continued political unrest in Europe and the effect which any outbreak there would inevitably have upon the whole world. However, confidence grows that here on this western continent the worst of the great depression is over and we are at last and definitely on the up-grade.

Restoration of confidence is one of the essential requirements to carry the world along the road to betterment, because until that confidence is restored everyone is afraid to venture in any direction, all continuing to live from hand to mouth, thinking only of the necessities of the immediate present instead of in terms of a larger and better future. While an undue and unjustified optimism at this time would be just as fatal to the long run as a continuance of an unjustified pessimism, it is perhaps well that attention should be directed to facts, figures and conditions which provide a sound basis for hopefulness and a greater confidence.

In recent years of financial difficulty and economic depression, many people have come to look with suspicion upon bankers and banking, but the fact remains that our Canadian banking institutions are about the best informed of all organizations as to the exact state of affairs in the Dominion. They have to be. Furthermore, they are always conservative in their sizing up of the general financial, economic and business situation. Banks, as a rule, are not overly enthusiastic or optimistic.

Because the above is true, there is real encouragement to be found in the monthly business summaries and news letters recently issued by the banks of Canada. One of the latest to come to hand is that of the Bank of Montreal, Canada's most conservative banking institution, dated November 23. For the benefit of readers who may not have the opportunity of reading these monthly business summaries, a few facts from this most recent publication may well be quoted.

Reviewing the Canadian situation, the Bank of Montreal says: "Trade has continued its upward trend during the past month, and the winter season opens with conditions generally distinctly better than they were a year ago. A review of the first ten months of the present year shows that of some fifty business indices available forty-five show gains, the majority of a pronounced character. The Dominion Bureau of Statistics index of the physical volume of business, which well sums up the whole, has advanced 21.4 per cent."

It is pointed out, too, that industrial activity is more apparent in a wide variety of trades than at this period in 1933, and that a wider distribution of goods is being made. Both import and export trade is increasing, bank clearings, railway car loadings, mineral production, forests and fisheries all reveal substantial betterments, while even in agriculture the taking of the Dominion as a whole, crops have been more abundant than at one time seemed probable and prices are higher.

Railway car loadings are greater than for several years and at the end of August were 24% higher than in the preceding year; employment in October, which usually shows a downward tendency, actually increased, the official index reaching 100 (which was the index in 1926) compared with 90.4 and 86.7 in October 1933 and 1932 respectively. Commercial failures were fewer in 1934 than in any of the preceding three years.

Dominion Government revenues reflect this general improvement, with Customs duties collected in the first ten months of this year 25% greater than in the same ten months of 1933.

Referring to the situation in the United States, the bank summary says: "The past month recorded a partial return to the business activity that had characterized the earlier months of the year."

Steady improvement in Great Britain is recorded. For the ten-month period total trade increased by \$23,000,000 over the corresponding period last year; railway traffic increased 4.1% since January 1; the number of persons in employment shows further improvement; British Government securities have reached the highest prices on record for nearly thirty years.

Thus the situation in Canada, United States and Great Britain, in which countries Canada is most vitally interested, is found to be of an encouraging character, making for a greater degree of confidence in the future, which, let it be repeated, is an essential condition to continued and greater improvement.

Prince Sent Prize Cattle

Five Specimens Were in Competition At Chicago Show

Expressing regret that he was unable to attend the thirty-fifth International Live Stock Exposition, at the new million-dollar exposition building at the stock yards in Chicago, the Prince of Wales advised Manager B. H. Heide by cable that he was sending five head of Short-

horn cattle and a specimen of Clydesdale draft horse breed to compete. This was the first International show in ten years at which the Prince of Wales has been represented. In 1924 one of his entries, King of the Fairies, carried off the grand championship for bulls. The animal was later sold at a record price to an American breeder.

Corn From South Africa

Enters Canada Duty Free And Saves Poultrymen Money

A cargo of 8,000 pounds of corn arrived recently at Vancouver from South Africa. It is claimed that this shipment saves the British Columbia poultrymen \$24,000, as it entered Canada duty free. Until the South African corn arrived, Argentine and United States products were imported, on which there was a duty of \$3 a ton. A second shipment was expected. Distribution of this corn extends as far east as Moose Jaw.

Giant Flying Boat Tested

Intended For Experimental Flights Across Pacific Next Year

A giant flying boat with a cruising range of 8,000 miles and intended ultimately for experimental flights across the Pacific Ocean is now being tested for air worthiness, it was learned at Bridgeport, Conn.

The ship, a Sikorsky, and similar to the "Brazilian Clipper" now operating in a South American route out of Miami, Fla., for Pan-American Airways, is known as Clipper No. Five.

Pan-American plans called for tests for Department of Commerce licensing, after which the ship was to make an over-water flight to Miami, out of sight of land.

There at the Airways' main operating base she will continue training flights for the benefit of the intended operating personnel. Some time after the end of the year, the ship will go to California for the first of the experimental flights across the Pacific by way of Hawaii and the Philippines.

The "Brazilian Clipper" has a capacity of 32 passengers, with additional room for 2,500 pounds of express freight. She carries 1,270 gallons of gasoline, and with a full load, has gone 1,250 miles during test flights.

Aid Found Successful

Removal Of Thyroid Gland Helps Sufferers From Heart Disease

Surgical relief of "heart disease," suggested by United States medical authorities, has been found successful in England.

Drs. O. Brenner and Hugh Donovan of Queens hospital, Birmingham, treated six sufferers of congestive heart-failure and angina pectoris by surgical removal of the thyroid gland in the neck, known as the "pacemaker of the body," because it is at which the body processes work.

It has been known for years that in certain diseases of the thyroid gland the heart races, the lungs work more rapidly and other body functions are accelerated. American medical authorities suggested that if the "pacemaker thyroid" were removed, the body processes would adjust themselves to the pace of the weakest part of the body-machine, the flagging heart. This theory was followed by Drs. Brenner and Donovan and the results have so far been successful, they stated.

The six patients treated by the new surgical method now are capable of more exertion than has been possible previously, the doctors report.

Friend—This is gratifying news. I see that not a single paying passenger was killed on an American railroad in 1933.

Railroad Man—We can't afford to lose any.

It is as bad to have too many friends as no friends at all.

TINY MALTA MOVES FOR PEACE

Scene in Valletta, Malta.

Ancient ruins of the island.

Malta, British Mediterranean outpost, which has a history tracing back to ancient times, is making the front pages again, this time in a great stride towards peace. The island's 320,000 inhabitants have been informed that Maltese again will be the official language of the island, replacing British and Italian in all the schools and law courts. This climaxes controversies between the British island officials and the Church with its Italian-favoring Nationalists. Three times since 1930 Great Britain has suspended the constitution of Malta, and the latest move to make Maltese the official language is taken as an effort on Britain's part to end all the internal strife.

Scout Had Wonderful Trip

Spent Summer In Northern Seas On Steamship Nascope

Thirteen thousand miles had been covered by Cockburn, McCallum, Winnipeg King's scout, when he arrived in Winnipeg after having travelled with the steamship Nascope on its annual trip through northern waters to the Arctic poles.

It was an adventurous and wonderful journey which has come the way of few youths, and the Winnipeg scout, who received it from the Hudson's Bay Company as the award given annually to Canada's outstanding scout, realized that when he arrived at the C.N.R. station and was greeted by his mother, Mrs. A. H. McCallum, his friends and officials of the Manitoba council of the boy scout association.

He left Winnipeg on June 29, going first by train to Toronto and Ottawa and then to Montreal, from where the Nascope sailed July 7. In Ottawa he received the flag of the Boy Scout Association, which flew at the top of one of the steamer's masts during the whole journey.

As the steamer sailed northward he saw the barren, rocky coast of Labrador, Cartwright, Burwell, Lake Harbour, of Radnor Land, Wakeham Bay, Wolstenholme, Cape Smith, Port Harrison and Charlton Island were posts on the northern coast where the steamer called as she proceeded to Hudson Bay and James Bay.

His company on the ship was as interesting as the journey itself. There was Ashley Cooper, governor of the company, and his party, D.M.P. officers on their way to duty at northern outposts, and men who would work at Hudson's Bay Company trading posts.

Several times the steamer was locked in ice floes and fog, on one occasion for seven days, and three days at another time.

The most northerly point reached by the ship was Craig Harbor, on Ellesmere Island, where R.C.M.P. officers are stationed. En route to the island the ship stopped at North Devon Island to establish a new H.B.C. post at Dundas Harbor. Two company men were left at the new post with several Eskimo families and their dogs, taken up from Churchill.

The return was started from Ellesmere Island about the middle of September, after several snows, which would remain until next summer had fallen and ice had begun to form.

The Nascope arrived at Halifax on the evening of Sept. 30, and Cockburn visited several eastern cities before continuing west. The long trip is now over, and his second year in pre-medicine at the University of Manitoba has begun. He is a member of the 44th Winnipeg troop, St. Margaret's church.

An oyster is 76 to 81 per cent. shell, by weight; and 8 to 13 per cent. meat.

YOUR HANDWRITING REVEALS YOUR CHARACTER

By LAWRENCE HIBBERT (Grapho-Analyst)

(AN, Nightly Reserved)

(Editor's Note: It is very evident that interest in this article, and in the subject of Character Reading from Handwriting, is increasing. Many readers are sending in their own handwriting for a personal reading by this well-known handwriting expert. Have you sent yours? See the author's invitation following this article.)

In the course of a huge mail that comes in to me every week, I am impressed by the number of young people, of both sexes, who are very vitally interested in finding what their friend's character is really like.

Some of them are franker than others, and inform me that they will rely entirely on my verdict. I am gratified by this confidence and all ways to me to guide my correspondents aright.

I often hesitate to inform any young person that their sweetheart is totally unsuited to them, because, so often, people can rectify weaknesses or negative traits by a little self-tuition. The great point is that a lot of people are unsuited to others, unless they get down to brass tacks and improve themselves.

A young lady wrote to me recently, enclosing a specimen of her boyfriend's writing. Incidentally, she told me that he was very fond of gambling, and did not seem able to give it up. A cursory inspection of his writing revealed that his worst fault was his inability to say "no." He was vacillating and prone to procrastinate. He was indecisive, unable to make up his own mind.

It does not take much thought to realize that this young man is guided too much by others, and, in his particular case, he finds it impossible to refuse whenever his chums suggest some form of gambling. He hasn't the backbone to say "no."

There is a chance for him, and for my correspondent's hope of making a successful union with him—but it depends on himself. He must exert more backbone. He must learn to decide things; to make up his mind. He doesn't or will not, then my young lady friend may as well write him off as a bad loss, and turn her attention in another direction.

One of the worst failings to which anyone can be subject, is a chronic indecision and procrastination. Anyone who has this disease—for it is a mental ailment—is an unlucky person to become fond of. Unless the failing is overcome, trouble and unhappiness are almost certain to follow.

There are cases where I have no hesitation in warning people to have nothing to do with certain others. Their deceit and dishonesty stand out in their writing like flag-poles. I will deal with this subject further in a later article.

"Mabel," Saskatoon—The writing of your friend shows that she is thrifty and cautious. You will be quite safe to entrust her with the matter you speak of, because you can be sure that she will look after it. It is her nature to do so. And, being honest and straightforward as she is, she can depend upon her.

Would you like to know what your handwriting discloses? Have any friends or sweetheart whose true character you would much like to know? A character reading will amaze you with its insight, and may open the doors of opportunity to you. Send specimens of the writing you want analysed, and state birthdate in each case. Enclose 50¢ coin for each specimen, and send with stamped addressed envelope, to: Lawrence Hibbert, care of Winnipeg Newspaper Union, 170 McBurney Avenue, Winnipeg, Man. Letters will be answered as soon as possible, but please do not expect the two weeks of your reply. All letters are confidential.

If you want to make money, just propagate a dwarf lawn grass which will grow only two inches high and still stay green.

The Hero Of Trafalgar

Nelson Was Considered Weak Youth When He Starred Courage

The exhibition of old pictures illustrating Vice-Admiral Viscount Horatio Nelson's career, recently held at the Parker Gallery, is full of interest. When Nelson joined the ship of his uncle, Maurice Suckling, the latter asked his father what the lad had done, that one so weak should be sent to rough it at sea.

That was in 1770. Twenty-seven years later, at Santa Cruz, the "weak youth" swarmed up a rope on board his ship, the *Theseus*, calling for the surgeon to amputate his shattered right arm. Sixty hours later, after an operation minus any kind of an anesthetic, Nelson was writing a despatch to Lord St. Vincent with his left hand. He assured the Duke of Clarence "I served a craft of art with which I never saw your King has been shot away."

On Cape Trafalgar, on the historic eve of our most glorious naval action, he said, "I'll now assume the feet; with a signal," and gave his captains the immortal "England expects" epic. A few hours later came the tragic. "They have got me at last, Hardy!"—London Letter.

Make Valuable Discovery

Carthage, Buried For Centuries, Has Been Brought To Light

A whole section of the ancient city of Carthage, buried for centuries beneath the sands of Northern Africa, has been brought to light, archaeological workers announced.

The excavations have revealed villas, paved streets, houses and buildings almost intact from the second and third centuries, and the discoveries are regarded by scholars as of great archaeological importance.

A part of the ancient city, hitherto unknown, which overlooked the Gulf of Tunis, has been uncovered, giving a vivid picture of daily life as it was long centuries ago.

The excavations are being continued, and a careful guard is being kept to prevent looting and vandalism.

Oldest Farm Workers

The combined ages of the three men who won the prizes offered by Williton and Dunster Agricultural Association, England, for the oldest farm workers still in active employment totalled 251 years. First prize went to John Chilcott (85 years), second to John Reed (84), and third to Thomas Gould (83).

The ancient Russians buried the unfaithful wife to the waist in damp earth.

Tin served as money in ancient Britain, iron in Sparta, lead in Burma, platinum in Russia.

The largest known pearl in the world measures four and one-half inches in circumference.

A single deck of cards provides the material for 753 different games.

FALSE TEETH

Dr. Wernett's Powder holds false teeth so firmly and comfortably in place for 24 hours—they actually feel natural—eat, laugh, etc. without fear of any slipping. Prescribed by world's most eminent dentists—they know it's the best—just suitable or, inexpensive—say dentists.

PAGEANTRY OF OLD ENGLAND AT ROYAL WEDDING

London—Office girls used vainly mirror and make-up looked through periscopes as all London sought to glimpse the wedding procession of Britain's Prince George and the lovely Marina.

All the pageantry of old England attended the wedding of the smiling princess of Greece and the tall, handsome Duke of Kent.

They were united according to ritual of the Church of England in Westminster Abbey and by rites of the Greek Orthodox Church at a subsequent service in the chapel of Buckingham Palace.

All the grandeur and tradition of the British Empire was typified in the rituals and pageants.

Their romance, which began in the mountains of Yugoslavia—on the estate of the late King Alexander, now assassinated—was commemorated with their pledging of their troths in history-steeped Westminster Abbey before the most glittering assembly of Europe's high personages which have gathered here in more than a decade.

The Duke of Kent called his bride simply "Marina."

She said, "I, Marina, take thee George Edward Alexander Edmund, to be my wedded husband."

The word "obey" was used in the service and the archbishop pronounced them man and wife.

The king and queen, King Haakon and Queen Maud of Norway and King Christian and Queen Alexandra of Denmark occupied the places of prominence among the royal guests nearest the brilliant white-decked altar with its flickering candles, costly golden plate and altar pieces. Not far away sat former King George of Greece.

Hon. G. Howard Ferguson, Canadian high commissioner, and Mrs. Ferguson were present with a group of other distinguished personages from the Dominion.

The entire cabinet and many former cabinet members occupied other places.

Great crowds outside were able to follow the ceremony through loud speakers with practically every man standing bareheaded.

It also was broadcast throughout the world.

Want Freight Reduction

Ask Lower Rate On Grain To United States Border

Winnipeg.—Representatives of Canadian Railways were asked to consider a reduction in freight rates from prairie points to the United States border-line. The suggestion was advanced by a committee of the Winnipeg Grain Exchange to enable farmers to market feed grains during the winter months.

The committee suggested the railways might establish a rate from western points that would compare favorably with the present Fort William rate. Navigation, it was pointed out, would soon close and farmers left dependent on an export rate that would not permit of their grain being sold.

At present heavy trucking of wheat and feed grain is in progress. This, it is suggested, would be completely halted with the first fall of heavy snow and export trade lost to Canadian farmers unless the railways place rates into effect making sales possible.

Willing To Help

Montreal.—Improvement in the pension situation for war veterans enabled the Canadian Legion to consider questions with which it could not deal previously. Colonel W. W. Foster, Vancouver, acting president of the Legion, stated here. As a result of this improvement, he said, the Legion has now offered the services of its members to the Dominion government to help it possible in relieving the unemployment crisis.

Excluded For December

Paris.—Canadian salmon exporters will be excluded from the French market completely during December. The 1933 accord expires Dec. 1, and the new accord, reached last September, does not become effective until Jan. 1.

Poultry For England

Halifax.—Part of John Bull's Christmas dinner at least is assured by shipment from this port during the first week of December of 1,000,000 pounds of choice poultry valued at \$200,000.

W. N. U. 2075

Big Business Rules

Manipulators Exert Influence To Support Government Control, Says Stevens

Toronto.—The manipulators of big business are the real government of Canada," declared Hon. H. H. Stevens before University of Toronto students at Hart House.

The former minister of trade and commerce was guest speaker at the university debate on the resolution "That in the opinion of this house big business is a curse when directed solely by the profit motive."

"Now don't get me wrong," he continued. "I do not say, nor would I admit, that the leaders of big business personally interfere with the operation of the government, but the very nature of the laws of the country and the character of this big business, as defined in the resolution, exerts an economic influence which supplants government control."

Mr. Stevens was the last speaker for the affirmative and at the conclusion of his address the house voted 307 to 88 in favor of the resolution.

Mr. Stevens said he turned to the financial page of his newspaper and read there the statement of a large and powerful bank. The statement showed deposits by the people of \$630,000,000, government and other bonds and debentures, \$317,000,000, and commercial loans, \$243,000,000.

"Now far be it from me to criticize any bank whose power and strength is denoted by such figures," said Mr. Stevens, "but it is my contention that banks are not meant to be a safety deposit place for government bonds. They are the custodians of the monies of the people to be loaned out for development of industry and business. Loans to business men of Canada are about one-half of what they should be."

"And here is a fact of which I am ashamed, and I am sure you will be too. In the Montreal, Toronto and Windsor districts there are 100,000 workers living under conditions that would be a disgrace to mid-continent areas, leave alone Canada."

The great crime of the age, said Mr. Stevens, was the refusal of big business men to accept responsibility for these working under them. "I may be accused of being sentimental," he said, "but there is dog-eared little of it in big business."

Referring to the tremendous executive salaries paid by one firm, he said "if the firm had paid one-third of the salaries, its executives which would have been quite sufficient to get along on, it would have meant a saving of \$1,000,000 a year, and would have given every one of their 5,000 employees living below a decent standard an additional \$200 a year. But those executives were paid for their capacity to go out and buy better than someone else, or to get more out of their workers for less."

Wheat Quota For France

This Means That Argentina And Canada Must Take Less

Budapest.—Representatives of six wheat exporting countries meeting here decided to grant France an export quota for 1934-35 provided their respective governments approve.

The decision came after three hours of discussion, following the adjournment of the full wheat conference.

Draft of the agreement, which United States delegates described as "very complicated," was sent to the seven governments, including France, for approval. Meanwhile delegates refused to reveal the size of the quota offered France.

This was the first time an export quota had been offered France and it meant that other exporters, particularly Argentina and Canada which between them expected to get two-thirds of the total quota of 600,000 bushels, must take less.

It was believed the net figure proposed for France was between 15,000,000 and 20,000,000 bushels.

Japan's Wheat Crop Up

Tokyo.—Japan's 1934 wheat crop shows a substantial increase compared with 1933 according to an estimate of cereal crops issued by the ministry of agriculture and forestry. The wheat yield this year is estimated by the ministry at 4,451,000 koku (47,253,000 bushels), an increase of 27,390,000 bushels over the preceding year's harvest.

Money For Aviators

Johannesburg, Union of South Africa.—Charles W. Scott, and T. Campbell Black, London, who, in Melbourne air derby winners, will make \$15,000 (about \$75,000) from advertising fees and film rights. A. O. Edwards, who financed the flight, announced here.

CHOICE OF WEST FOR DIRECTOR OF CENTRAL BANK

Saskatoon.—R. A. Wright, prominent farmer and cattle breeder of Drinkwater, Saskatchewan, received the unanimous support of western boards to be their nominee as director of the Bank of Canada representing the three prairie provinces. His name was forwarded to the Canadian Chamber of Commerce, and he was included, it is expected, in the list of officers for which the chamber will solicit the support of the shareholders.

Several other persons were under consideration at the meeting, but were unsupported on the grounds that their chief occupation was not that of primary production as set out in the act and recommended to the western boards by the chamber of commerce. Mr. Wright is actively engaged in farming and livestock raising.

Representatives at the meeting here were: W. McCurdy, president of the Winnipeg Board of Trade and business manager of the Winnipeg Tribune, and E. C. Gilliat, secretary; J. H. Hanna, commissioner of the Saskatchewan Board of Trade; J. A. Thomson, representing Regina Board of Trade, and A. J. Trotter and J. D. Glenwright, of Edmonton, was unable to be present, but the Edmonton Board of Trade telephoned concurrence in the selection of Mr. Wright.

Mr. Wright's name was placed before the meeting by the representative from Regina. In supporting his selection, it was pointed out that he was vice-president of the Canadian Chamber of Commerce for Saskatchewan, and a director of the Saskatchewan Livestock Board. He has had a long experience in prairie farming and now operates a large farm in the southern part of the province. Mr. Wright is president of the Western Canadian Livestock Union. Several years ago he took a prominent part in organizing opposition to a suggested compulsory livestock pool.

Action to agree upon a single nominee was begun by the Canadian Chamber of Commerce about 10 days ago and was taken to make certain that the prairie provinces would have representation on the board of directors. Extensive stock holdings in central Canada suggested the possibility that the westerner would be selected by the shareholders.

Money Not Available

Government Cannot Authorize Outlay For Radio Station

Ottawa.—Owing to lack of funds, the government has turned down the recommendation of the radio commission that a high power broadcasting unit be constructed in central Saskatchewan to serve the middle section of the prairie provinces.

The proposed station would have cost about \$250,000 and there is no money available to meet it. For this reason the government has declined to authorize the outlay this year and will reconsider the position next spring when the new fiscal year begins.

Left To Sub-Committee

Livestock Marketing Plan To Be Discussed With Prairie Provinces

Winnipeg.—Efforts to formulate a livestock marketing plan for the three prairie provinces was shunted onto the shoulders of a sub-committee instructed to negotiate with Alberta and Saskatchewan breeders.

Winding up a two-day discussion, representatives of Manitoba farm organizations named a sub-committee of five to seek discussions with Saskatchewan and Alberta organizations as early as possible.

While conceding Great Britain the right to possess the largest navy in the world because of her far-flung Dominions and Colonies, Tuncay Marston, above, declared Japan would not be satisfied with anything less than full naval equality with the United States.

Canada's New Bank Bills

Details Were Made Public By Finance Minister

Ottawa.—Members of the royal family and two famous Canadian prime ministers are portrayed on the new paper currency to be issued by the Bank of Canada. Details of the new money were made public through Finance Minister E. N. Rhodes. The denominations so far contracted for are \$1, \$2, \$5, \$10, \$20, \$50, \$100, \$500 and \$1000.

Sir John A. Macdonald, Confederation prime minister, and Sir Wilfrid Laurier, the great Liberal, who was prime minister from 1896 to 1911, are the two Canadians whose likenesses will be perpetuated in the new money. Sir John A. Macdonald's likeness will be engraved on the \$500 bill and that of Sir Wilfrid on the \$1000 notes, the reverse side bearing allegorical engravings representative of agriculture and "protection" respectively.

The new bills will be six inches long by 2 1/2 inches wide, fractionally shorter and wider than the United States bills and much smaller than the existing Canadian notes. "The \$1's will be green, \$2's blue, \$5's orange, and \$10's purple. Colors for the other denominations have not been definitely decided.

Left To Sub-Committee

Livestock Marketing Plan To Be Discussed With Prairie Provinces

Winnipeg.—Efforts to formulate a livestock marketing plan for the three prairie provinces was shunted onto the shoulders of a sub-committee instructed to negotiate with Alberta and Saskatchewan breeders.

Winding up a two-day discussion, representatives of Manitoba farm organizations named a sub-committee of five to seek discussions with Saskatchewan and Alberta organizations as early as possible.

Bread Cards Abolished

Moscow.—Bread cards will be abolished in Soviet Russia on January 1 and bread flour will be sold generally in open shops, it was announced at a meeting of the central committee of the Communist party. The committee announced this will necessarily increase bread prices, but gave instructions that wages, workers' pensions and money given to students will be increased to meet the advance.

NEW DOMINION CABINET MINISTERS

Richard B. Hanson, K.C., M.P. (left), whose appointment as Minister of Trade and Commerce in succession to Hon. H. H. Stevens is understood to have been decided upon at Ottawa. Grote Stirling (right), M.P. for Yale, B.C. is reported to be the choice for Canada's new Minister of National Defence, succeeding Hon. Donald Sutherland, who will, it is said, assume the portfolio of Pensions and National Health, laid down by Hon. Murray McLaren. The latter is understood to be withdrawing from the cabinet. Mr. Stirling will, it is said, also be Acting Minister of Fisheries.

U.S. Team Wins

Decisive Victory Obtained In Jumping Event At Winter Fair

Toronto.—Consistent riding by United States army team gave them a decisive victory in the international officers' team challenge trophy, outstanding event at the Royal Winter Fair horse show. The trophy, presented by Hon. G. Howard Ferguson, Canadian high commissioner at London, is open to all nations for teams of three jumpers.

The Irish Free State army team, last year's winner, put up a strenuous defence but 10 faults made by the first rider lost their chance of victory.

The United States, which won it in 1932, had only nine faults scored against it, three by each rider.

The Chilean outfit with 15 faults, were shut out in the third place. Twenty-six faults sent the French squad into fourth place ahead of the Canadian team which scored 28 faults.

URGES GERMANY TO ABANDON ISOLATION POLICY

London.—Sir John Simon, foreign secretary, wound up a "council state" debate on home defences in the House of Commons by announcing the full contents of Stanley Baldwin's speech, urging Germany to abandon her policy of secrecy and isolation, had been delivered to Germany. France, Italy and the United States with a full explanation by the foreign office.

Sir John's announcement climaxed an all-day debate on imperial defence. The house rejected an amendment to the address in reply to the throne speech from Winston Churchill, declaring Britain's defences were entirely inadequate, and approved the government's address.

The foreign secretary emphasized there was no difference of opinion in Britain on the question of defence. There were no advocates of unilateral disarmament.

He said Mr. Baldwin's plea that Germany ease the condition of nervous apprehension in Europe by tearing away the veil of secrecy helped clear away a great deal of suspicion. That speech had been delivered to world powers, he said, "because this is not an Anglo-German proposition but an European and world proposition."

"We have thus helped to clear away a great deal of suspicion. The communications to other governments constituted a new development and might create a new situation if we can get international agreement."

"We should like an agreement on disarmament at the lowest possible level. If we cannot get an attainable ideal we must seek an agreement at the lowest level possible. We stand for regulated limitation as opposed to competition and unregulated armament."

Germany's factories are working under "practically war-time conditions," Mr. Churchill asserted. He declared the great new fact which riveted the attention of every country in Europe and in the world is that "Germany is re-arming on land, to some extent at sea and, which concerns Britain most, in the air."

Stressing the need of strengthening the air force particularly, Mr. Churchill said almost every part of the United Kingdom was within range of air attacks from the continent.

"It is useless to move armaments and factories to the west coast," he said. "We must face the peril where we stand."

Pending some radical new discovery, he declared, the only practical measure of defence was the ability to inflict as much damage to the enemy as he could inflict on Britain. He advocated the maintenance regardless of cost, for the next 10 years of an air force substantially stronger than that of Germany.

"The Germans are mostly friendly," he said. "There is no reason to think they will attack us. But under the Nazi regime the decision of only a handful of men is required to launch an attack without notice."

Stanley Baldwin, lord president of the council, said that even while things looked "so black" he had not abandoned hope of arms restriction.

"There has grown a condition of nervous apprehension which bodes ill for peace," Mr. Baldwin admitted. He suggested the Germans ask themselves "what is the price Germany was paying in the mental condition of Europe was worth her secrecy and her breaking the Geneva link with her sister nations."

PROP IS NEEDED TO STABILIZE WHEAT PRICES

Calgary.—Government influence in the wheat markets is essential, L. C. Brouillette, president of the Saskatchewan wheat pool, told delegates attending the Alberta wheat pool annual meeting here.

"If the government goes out of the market, many farmers will go out of business," declared Mr. Brouillette. Referring to Prime Minister R. B. Bennett's statement that federal stabilization operations had meant \$25,000,000 to grain growers, the pool president thought the figure mentioned was very conservative.

Co-operation of federal and provincial governments and the primary producer he saw as the means to place agriculture on a secure basis. Wheat marketing system might be used, he said, must take the long view and fit in with world demand.

Mr. Brouillette dealt with the organization of pools, and expressed the belief there was every confidence in the work of the co-operative associations to-day throughout the prairie provinces.

Ontario Prisoner Shot

Is Killed In Attempt To Escape From Ontario Reformatory

Toronto.—Fred Ertal, 26, was shot to death when he attempted to escape from the brick and tile plant of the Ontario reformatory, Etobicoke townships.

With three companions, Ertal attempted to flee but the four men were met in the reception room of the institution and were overpowered after a 15-minute battle. During the fight, Sgt. Campbell and Geo. Jamieson, guards, were seriously injured, suffering from head wounds.

Sgt. Moran, another reformatory official, came to the help of the guards and Ertal was shot when a revolver was brought into play. Sgt. Moran was unhurt.

The attempted break occurred about 8:30 o'clock at night and at midnight C. F. Neeland, deputy provincial secretary, arrived at the institution and started an inquiry. The reception room was wrecked during the struggle and the floor was the body of Ertal with blood spreading over the flooring from a wound in his chest.

Former German Colony

Now Elects To Join The Union Of South Africa

Windhoek, Africa.—Legislature of Southwest Africa, former German colony now administered by the Union of South Africa, adopted by a 2 to 1 vote a motion requesting the territory should be administered as a fifth province of the Union of South Africa.

This would be subject of course to the provisions of the league mandate. The requisite two-thirds majority in favor of such a course having been secured in the general elections last month—after the government dissolved the growing German Nazi party here—there apparently remain no further obstacles to joining the union. The motion also urged the territory should be represented in both houses of the union parliament.

Bank Of Canada

Montreal Stockholders Suggest Nominees For Board

Montreal.—Montreal stockholders of the Bank of Canada suggested nominees to the board of the Bank of Canada as follows: Sir Newton Moore, president of the Dominion Steel and Coal Corporation; Victor M. Drury, president of the E. B. Eddy Company, Limited; Robert J. Major, president of the Montreal Board of Trade and president of the National Steel Car Corporation; W. C. Finley, director of the Montreal Tramways Company, and Lt.-Col. F. R. Phelan, president Financial Services.

The local group of stockholders who agreed on the nominations met at the board of trade at the suggestion of the Canadian Chamber of Commerce.

Seek Wheat Agreement

Budapest.—The international wheat advisory committee has closed its annual meetings here but delegates of the big four exporters—Canada, Australia, the Argentine and the United States remained over in an endeavor to reach agreement on the differences over new export quotas.

VETERAN ANGLICAN ARCTIC MISSIONARY DEAD IN WINNIPEG

WINNIPEG, Dec. 4. — History, author and churchman, serving the Anglican church from the Arctic northwest to Manitoba and in his writings interpreting the spirit of the old west, Rev. A. C. Garrioch is dead here, aged 86.

Born in Middlechurch, seven miles from here, in 1848, Mr. Garrioch was one of Manitoba's most picturesque historians. Ordained to the ministry in 1886, he went to the far north to help establish an Indian industry school. An ardent missionary, he remained in the Arctic for 17 years. His wrote four books and translated the Bible into Beaver Indian language.

The Bowery

(United Artists 20th Century)
Comedy and Drama

Tab this now as a record breaker. The producers included just about every audience-entertaining element. There's interest for women that's just as useful as its male appeal, yet so understandingly pronounced that it's a natural for youngsters. Rough, tough and boisterous; yet, paradoxically, it's beautiful. What's more, it's alive with showmanship, exploitation-potentialities.

Only the title is needed to tell the community what it's all about. Strong events, personalities, and the kaleidoscopic color of the locale make the taste theme live. There's comedy in action and dialogue, human interest, bawling to p-keos, thrill, excitement, spectacle and romance. Your crowd got a taste of this show's tone in "She Done Him Wrong." Here's a deluxe order of the same stuff dished up on a silver platter. Attuned to a reborn national spirit, the drama, comedy, love-interest, color and punch are made more potent by the musical scoring. Pulsating barroom "The Bowery" vies with sentimental "Auld Lang Syne" and "Boy of Mine" as theme songs. Rascous "Strike Up The Band," "Hot Vins In The Old Town Tonight" and "La Ra Boom De Aye" and others provide the contrast.

It's a cinch to sell. They've handed you everything you need—names—names for anybody's purpose. Boery and Cooper, "The Champ" pair again, in an almost identical relation; George Raft hitting the high spots; Fay Wray, innocent and virtuous, caught in the throbbing conflict, going through and coming out clean; Pert Kelton, the '98 saloon sophisticate and her ham-hipped-bellon foisted chorus. "The Bowery" is a roaring saga of personalities, events, time and conditions rapidly becoming American mythology. There's Chuck Connors, "tops" in the Bowery, a mug whose heart is as big as his bulky the dolzing Swipes. Legendary Steve Brodie; John L. Sullivan, only a bit, but a thrilling bit; the crusading hatchetman, Carlie Nat on the destruction of the Maine; the Spanish-American War patriotic fervor. And there are the rival Connors-Brodie volunteer fire brigades that battled with brick bats, brass knuckles, blackjacks and garbage cans as the fire burned merrily. And add Brodie's famous Brooklyn Bridge jump.

Marriages

HARLEY — BLACKWELL

On Tuesday morning, December 4th, a quiet wedding was solemnized at the United Church Manse, when Miss Mary Anne Blackwell, of Heath, was united in marriage to Mr. Eric Bernard Harley, also of Heath. They were supported by Mr. and Mrs. Richard Bishop, Mrs. Bishop being sister of the bride. Rev. T. Edgar Armstrong officiated. The happy couple will reside on the groom's farm in the Heath district. The Record joins with their many friends in extending best wishes to this young couple.

after an appendicitis operation, is getting along very nicely. He is a patient in the local hospital.

Word was received on Thursday by Mrs. W. C. Bowen, of the serious illness of her brother, William Riggs, of Bonville, Ontario. Our sympathy is extended to Mrs. W. Bowen.

Mr. and Mrs. L. E. Salisbury motored to Edmonton on Saturday. Mr. Salisbury attended to some business while there.

Mrs. Olga Moyes drove to Nelligan, Saskatchewan, on Monday and returned the same day. Her sister, Mrs. Don Root and two children returned with her. She will stay until Christmas.

AT THE LIBRARY

At the Library "They took me for a ride." Why did Dillinger go free when 20,000 people were after him? Dillinger was the killer of policemen and citizens, the man who had broken out of prison and helped other members of his gang to get free. Why was the Lindbergh child killed? Why was Vivian Gordon strang-

had before giving evidence about graft and corruption in New York City? Why the Alms Temple Movement hoax of 1926? They took me for a ride describes the system by which murderers on the other side of the Atlantic have been permitted to turn justice into

a farce. Police officials, lawyers, and judges usually get rich because they are elected to office by political gangs. The aim of the off-in is to see how much money they can make out of their period of office—with the results shown in this book.
